

Hi! I'm Dr. Shannon Bailey, and I'd like to tell you about ESOL at ACC. I'm the department chair and have been at the college since 1998. ESOL faculty are so committed to helping English learners succeed, and we've worked hard not only to transition to remote learning but also to help our students adjust to this new online learning format. When COVID arrived, we weren't prepared to go from face-to-face teaching to online instruction. We knew our students weren't either—but knowing that made us work that much harder. We truly care about helping every student become ready for the academic world and beyond. Yes, we are a rigorous program, but we'll make sure you achieve your goals!
